PROFESSIONAL SUMMARY

Frontend Developer with a Bachelor's Degree in Information Technology. Skilled in crafting responsive, accessible, and visually engaging web applications using modern frameworks and tools. Passionate about creating seamless user experiences, optimizing performance, and translating design concepts into functional, high-quality code. Eager to contribute to dynamic projects and grow in a collaborative development environment.

TECHNICAL SKILLS

Front-End Development: Bootstrap, TailwindCSS, jQuery, ReactJS

Back-End Development: PHP, Python, RestAPI

Database Management: MySQL

Version Control: Git, GitHub

EDUCATION

Bachelor of Science in Information Technology | July 2025 *Global Reciprocal Colleges – Caloocan City*

CERTIFICATIONS AND ACHIEVEMENTS

Simple React App from Scratch | April 20, 2025 *Issued by Udemy*

- Completed a hands-on course on building React applications from the ground up.
- Gained practical experience with components, state management, props, and basic routing.

Data Privacy and Protection in the Digital Age | November 06, 2024 *Issued by West Visayas State University*

- Attended a seminar focused on global data privacy laws, digital compliance, and best practices for securing personal and organizational information.

Introduction to Cybersecurity | October 03, 2024 *Issued by Cisco Networking Academy*

- Completed foundational training on cybersecurity threats, vulnerabilities, and protective strategies.
- Gained knowledge in areas such as network security, cryptography, risk management, and ethical hacking.

Best Programming and Coding Practices (Awarded) | June 18, 2023 *Issued by Global Reciprocal Colleges*

- Awarded for outstanding performance in a coding competition focused on clean code principles and efficient programming techniques.

HACKATHON PARTICIPATION

InnOlympics 2025 (Google Dev Student Clubs, PLM) | January 11-12, 2025

- Built **AyudaCo**, a web platform that streamlines government aid through automated eligibility checks and real-time distribution tracking.
- Technologies Used:** PHP, MySQL, and Bootstrap.

FlutterFlow HackFest: Impact Challenge | November 22-23, 2024

- Developed **ECO Learn**, an educational app featuring environmental articles, interactive quizzes, and gamified rewards.
- Note: This entry shows initiative in learning a new low-code tool (FlutterFlow).*
